[The Post is now reporting](#) that the recommendations include reductions to Bears Ears, Grand Staircase, and Cascade (no real surprises there). I guess we'll see if the report specifically delineates where these reductions would occur.

Thanks. FYI, this summary is already part of the DOI press release that went out to the public.

Passing this along...obviously this is not something that should circulate beyond us at this point.

Ben

A copy of the Department's press release and a summary of the report and the review process is attached, both in the same document. I do not know when or if the actual report will be released.

Everyone has done a great job on this, but the process is not quite finished and we may need your assistance again before it is.
